WORK EXPERIENCE

Teaching Assistant (TA)

George Washington University Coding Bootcamp - Arlington, VA - April 2017 to Present

As a Teaching Assistant I assist students by answering their questions, reviewing their code, grading their homework and providing learning resources. The technologies focused on are, HTML5, CSS3, JavaScript, jQuery, Java, Python, Ruby, Bootstrap, Express.js, React.js, Node.js, MongoDB, Sequelize, MySQL, Firebase and Heroku

Jr Web Developer

Zurka Interactive LLC - Vienna, VA - November 2016 to Present

As a Jr Web Developer I make web applications for researchers at the Naval Research Lab. The technologies used are, Laravel, PHP, MySQL, Javascript, JQuery, Bootstrap and HTML/CSS.

Full Stack Web Developer

General Assembly - Washington, DC - May 2016 to November 2016

Marvel vs. Capcom Memory - This is a game of concentration made with a popular old-school video game theme. The technologies used were: HTML/CSS, JQuery and GitHub Pages.

Chris Loves Combos - This is a WordPress blog that I deployed to Heroku. The blog is about things that I like. The technologies used were: WordPress, PHP, PostgreSQL, Bootstrap and Heroku.

Congreddit - This application allows users to see the voting history of current Senators and House Representatives. The technologies used were: HTML/CSS, AngularJS, Ruby on Rails, Heroku and GitHub Pages.

Guest Services Representative/Server/Auditor

Marriott International, Inc. - Merrifield, VA - February 2013 to July 2016

I held three positions at this hotel, all involving critical thinking and creative problem solving at a fast pace. My coworkers and I, quickly found solutions to problems while still attending to other responsibilities.

Customer Happiness

mHelpDesk - Merrifield, VA - February 2015 to August 2015

While at mHelpDesk, I gained a wealth of knowledge of the SDLC. On the support team, I was able to contribute to the company's software and users experiences. For example, I had opportunities to practice my skills with CSS styling and positioning while also helping customers with invoice and estimate templates that were generated through the company's software.

EDUCATION

General Assembly

Northern Virginia Community College
